BITZ PACKS

Bitz Packs are sets of components designed to allow you to personalise the models in your collection easily.

Bitz Packs are presented in two ways - either as an unpainted component piece or as the components with a painted example. The example opposite shows a Vampire Counts Skeleton Warrior that has been converted with the addition of a Coffin Lid Shield.

This Bitz Pack allows you to personalise your models.

Multi-Part Plastic Kits

The multi-part plastic kit is a boxed set that contains one or more plastic "frames" of models or component parts that can be clipped out and assembled in a variety of different poses and often with several choices for weapons or equipment.

Many multi-part plastic kits can make several options of model or troop type depending on which combination a modeller selects.

Other kits may allow for a variety of weapon combinations, upgrades, or accessories. To the right we have shown two differently assembled Temple Guard made from the Lizardmen Temple Guard box on page 98.

For each product that bears the multi-part plastic kit stamp we have shown a painted example of just some of the models that can be assembled and a brief description of all the models and/or weapon choices that are possible.

CODEX: DAEMONNUNTERS

The Inquisition is a secretive body, founded in the earliest days of the Imperium, to defend humanity against the alien, the witch and the heretic. Such is the power and authority wielded by an Inquisitor; he can call upon the services of every branch of the Imperium's armed forces, even the mighty Space Marines should the threat be great enough. Each Inquisitor is an exceptional individual with access to their own specialist troops. A Daemonhunter army can be bolstered by the awesome Grey Knights. Surpassing even their brother Space Marines in skill and ability and armed with psychically charged force weapons and an unshakable faith in the Emperor, there is no more daunting foe for a daemon to face.

CODEX: DARK ELDAR 60330112001

Inhabiting a realm called Commorragh, a place as dark and twisted as its rulers, the Oark Eldar launch piratical raids across the length and breadth of the galaxy. Their only purpose is to cause mayhem, steal, pillage and most importantly, to capture fresh victims to return home with. If any race could properly be called evil, it would be the Dark Elder. Devious, vain, and totally self-serving, they hold no respect for any living creature, not even themselves. Reveiling in the pain and suffering they inflict, to be captured by them is a fate far worse than death.

CODEX: ELDAR 60250184003

Lost in the vastness of space, Eldar craftworlds float in utter isolation, their homeworlds destroyed during the Fall, the catastrophic collapse of their civilisation. Highly advanced and deadly, they are physically similar to humans but possessing minds as alien as an Orks. Even as their race is slowly dying, their Farseers look upon the many strands of fate in hope of preventing the coming of Chaos and the death of their race. When an Eldar army goes to war it is at the behest of these revered seers, tasked with ensuring something is protected, moved or destroyed. They strike hard and without warning, showing neither mercy nor remorse, for without their actions the universe would surely be doomed.

CODEX: WITCH HUNTERS

The Inquisition is a secretive body, founded in the earliest days of the Imperium, to defend humanity against the alien, the witch and the heretic. Such is the power and authority wielded by an Inquisitor; he can call upon the services of every branch of the Imperium's armed forces, even the mighty Space Marines should the threat be great enough. Each Inquisitor is an exceptional individual with access to their own specialist troops. A Witch Hunter army can be bolstered by the Sisters of Battle, shining examples of all that is good about humanity. The fighting arm of the Ecclesiarchy, they are armed with the finest armour and weapons and are among the best and bravest warriors an Inquisitor can call upon.

LORD THE LINGS STRATEGY BATTLE GAME

Now is a time of war and strife throughout Middle-earth. Sauron's power has grown, his confidence fed by the unbridled and ever-growing might that is his to command. Mordor and Isengard now stand emptied, their untold legions set loose to slaughter and ruin. Against these dark hosts stand an alliance of Free Peoples – Men, Elves and Dwarves whose one purpose is the deliverance of Middle-earth.

The Lord of the Rings Strategy Battle Game allows two or more players to recreate scenes from The Lord of the Rings, from small skirmishes to massive tabletop battles. Lead The Fellowship of the Ring as they battle their way through Khazad-dûm, thwart the defenders of Helm's Deep, or take part in the glorious battles of the Pelennor Fields. A host of Citadel miniatures are yours to command, from mighty heroes to fearsome monsters.

COLLECTORS RANGE

The worlds of Warhammer and Warhammer 40,000 come to life at the hands of the Citadel sculptors. With the Collectors Range, our expert designers are free to explore these universes however they like, creating bespoke miniatures for the discerning collector.

The miniatures in the Collectors Range are display pieces, often dioramas or set-pieces, primarily intended for painting and display rather than gaming. Although this is a small part of the range at the moment we hope to add more Collectors models over time.

The following pages showcase some examples of the models in the Collectors Range.

To see more and to purchase, visit our web site:

www.games-workshop.com.

This set of hotchfring and juvenille dragons has been scullped by expert creative-maker. Tirsh Carden. The Baby Dragon set comprises live models, two young diagons, two hatched eggs and a rocky, bone-stream nest, inside the nest are three eggs yet to hatch, no doubt containing the next generation of these legendary creatures.

Greenskins live for violence, and in the absence of any entenies they will cheerfully light arranged themselves. This model, sculpted by Alex Hedström, portrays two Drc Boyz settling their differences with their firsts and an unfortunate Night Gobin.

A real gern from the archives. This set of God Rockers were sculpted in the 80's by Key Adams when Wartashmer 40,000 and hall metal went hand-in-fland.

This regrette studeted by Thats Mariblania Liber consists of three characterful models. The small Squig is being clusted by the hungry Night Gobiln who in burn is being classed by an oven hungrier, and even larger. Cave Squig.

Specialist Games

If you've collected an army for Warhammer,
Warhammer 40,000 or The Lord of The Rings
Strategy Battle Game, and you now fancy trying
something a bit different within the Games Workshop
hobby, then the Specialist Games range is for you.

At present the Specialist Games range includes the following games: Blood Bowl, Warmaster, Epic Armageddon, Battlefleet Gothic, Mordheim, Necromunda, Inquisitor and The Battle of Five Armies.

Each game has an original background setting based within the worlds and universe of Warhammer, Warhammer 40,000 and The Hobbit. From leading a victous gang in the orlapsdated Underhives of Necromunda, marshalling tens of thousands of troops over the great battlefields of the Old World, commanding two-mile long cathedral battleships, coaching an all-star sports team, or going undercover deep in the lair of a Chaos cult - the possibilities are endiess.

Each game in the Specialist Games range has also been designed to highlight a certain facet of the hobby – you may want to collect and paint miniatures that are in a different scale, or wish to develop a gang or team in a league or campaign environment; you may wish to role-play or tell stories through your games; or play games whose rules provide different tactical and strategic challenges; or you may just want to push spaceships about on the table top!

You can order the miniatures from www.games-workshop.com, where you will find the most up-to-date version of the Specialist Games Catalogue, or you can ask the staff in your loca Games Workshop store to order them for you.

Last, but very far from least, you can find the rules for many of the games in the Specialist Range on our website as a free (yes, free!) downloadable rulebook, along with a large database of articles and player-aids as well
